After the final day of registration, the Rounds shall be generated with exact date frames. Each Round will have a certain duration when participants should play their matches. The system will automatically proceed with the pairing for Round 1 so that everyone knows against whom they should play the round. The match will be automatically created in the system. Participants will need to "Edit" the date and time. The golfers can contact each other through the "Private Messages" tab inside the system of GolfMatchPlay and agree on the date and time. After the game, both players need to go to their Dashboard in GolfMatchPlay system and confirm the winner (both players need to make a confirmation, otherwise the system will not recognize the result). The winner of the Round receives 3 points and the loser - 1 point. All points will be calculated and added to the Main Leaderboard of GolfMatchPlay. The winner will proceed to the next Round.
